

MOVE Electronic Forum

Activity 3. Knowledge sharing and information repository

Objective of the Forum

Facilitate the interaction between stakeholders, partners and the general public

Show material produced by the working groups of MAES and other relevant initiatives

Keep update on the ongoing activities within the regions, and share of relevant scientific knowledge (e.g. results of the case studies)

i) MOVE Case studies

Canary Islands

1) IDENTIFICATION OF RELEVANT POLICY QUESTIONS

This thread is dedicated to discussing relevant policy questions that could be addressed by the process of ES mapping and assessment in the case study

2) STAKEHOLDERS NETWORK CREATION AND INVOLVEMENT

This discussion thread aims to facilitate an active process of dialogue and interaction between stakeholders with interest in the ES mapping and assessment in the case study

Subforums:

- Identification of relevant stakeholders at different scales and their level of involvement
- Raising awareness of existing networks and stakeholder support groups
- Creating new networks and collaborations

3) ES MAPPING AND ASSESSMENT PROCESS

This thread is made for discussing the different steps in the process of ES mapping and assessment based on the integration of the biophysical, economic and social domains.

Subforums:

- Identification of ecosystem types (e.g. urban, coastal, marine inlets, transitional waters, etc.)
- Selection of ES (scientists-driven, stakeholders-driven)
- Integration of ES mapping and assessment results

4) COMMUNICATION AND DISSEMINATION

This discussion thread explores effective approaches of dissemination and communication of the case study findings

- Subforums:
- Available platforms and networks for publishing relevant findings
 - Scientific dissemination and society involvement
 - Science-policy interface

5) IMPLEMENTATION, UPTAKE OF RESULTS IN DECISION-MAKING

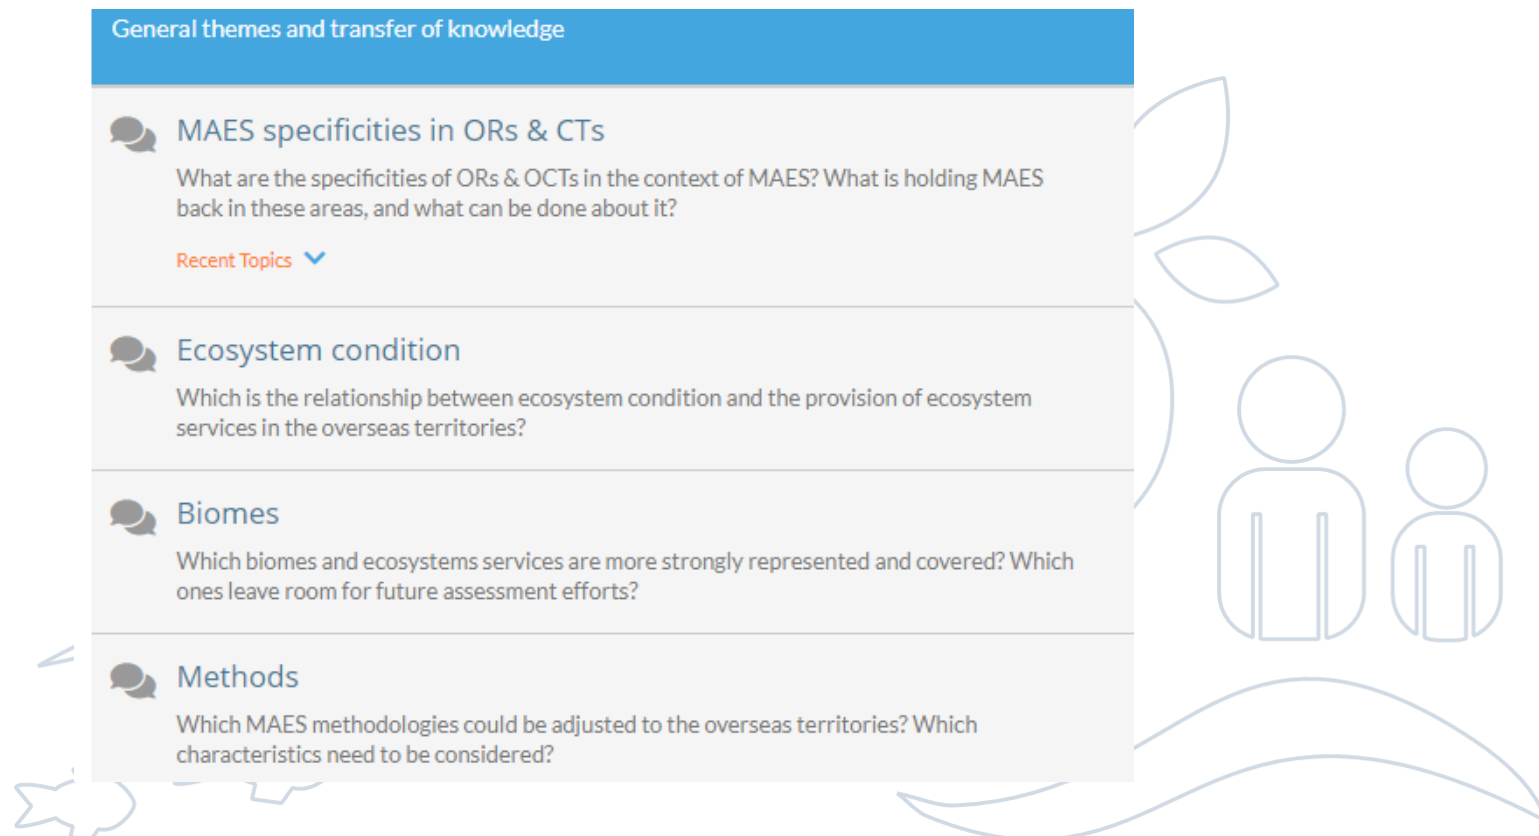

This thread aims to discuss the potential impact of the ES mapping and assessment results and the possible barriers that could prevent them from being implemented or adopted more broadly in the case study area.

Highlight relevant information of the MAES process in each of the case study areas

In some of the topics of the MAES process, we added sub-forums of relevant points for discussions. As more discussions develop, as further sub-forums will be added.

ii) General themes and transfer of knowledge

- Cross-case study discussion on MAES between the European mainland and the Outermost regions (ORs) and Overseas Countries and Territories (OCTs)

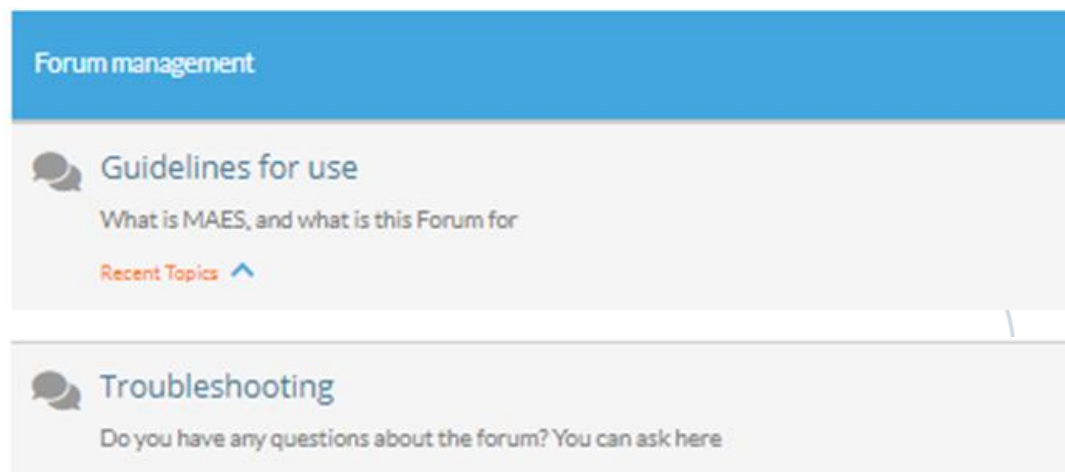

General themes and transfer of knowledge

- MAES specificities in ORs & CTs**
What are the specificities of ORs & OCTs in the context of MAES? What is holding MAES back in these areas, and what can be done about it?
[Recent Topics](#) ▾
- Ecosystem condition**
Which is the relationship between ecosystem condition and the provision of ecosystem services in the overseas territories?
- Biomes**
Which biomes and ecosystems services are more strongly represented and covered? Which ones leave room for future assessment efforts?
- Methods**
Which MAES methodologies could be adjusted to the overseas territories? Which characteristics need to be considered?

iii) Forum Management

- Address any questions related to the use of the Forum itself. It includes guidelines for use and troubleshooting.
